Protecting What Matters Most

Seagrave Stainless Steel Marauder

This remarkable cab begins with a Seagrave exclusive substantial three inch rectangular tube steel subframe. Welded over this subframe is a completely enclosed, all-stainless steel superstructure that creates a protective cage. The entire structure is then covered with heavy-gauge, stainless steel. The finished Marauder II® is one of three premiere cab choices, designed to out perform in longevity, durability, and safety.

Roll-Tek Technology Available

- Deploys in a quarter of a second
- Improves driver and passenger survivability
- Suspension seat lowers to allow more space between roof and driver/passenger

Cab Safety Cage Specifications:

Roof Assembly: 1.25" Stainless Steel Tubing
Front A Pillar: 2"x 3" Stainless Steel Tubing
Back Wall: 1.25" Stainless Steel Tubing
Sides: 1.25" Stainless Steel Tubing

By purchasing a Seagrave, you are showing the utmost regard for the safety of your department's personnel. Seagrave cabs are constructed of the highest quality materials and produced with exceptional craftsmanship. Seagrave cabs are built with the customers in mind. Seagrave cabs feature a robust safety cage designed to protect firefighters in the occurrence of a collision.
